Subject: One mans complaint against the proposed settlement

Dear sir or madam,

It has reciently been brought to my attention that the department of justice intends to deal microsoft a slap on the wrist in the form of a weak settlement. I strongly protest this on many different levels, however, i will restrain my comments to just one. Too many companies in this country have the attitude that there is no reason to fear the laws of this country.

The attitude, it seems, is that any illegal action can be dealt with by simply either donating money to the right politicians, shredding the revelent documents, or litigating the dammmages down to nothing. Ive seen this time and time again and i can tell you that most people i talk to feel that the government only exists to serve big corporations and that the laws that are ment to protect us are meaningless. Please do your part to reverse this bitterness; deal out a real punishment to microsoft, not just a wink and token fine.

thank you
colin bonderman
